

HOW TO CHOOSE

Label Completion Software is the right choice for me because	MPL API is the right choice for me because
<ul style="list-style-type: none"> • my business is not too big, and I have no access to IT development assistance. 	<ul style="list-style-type: none"> • my business has access to readily available IT development assistance.
<ul style="list-style-type: none"> • I send relatively few parcels. 	<ul style="list-style-type: none"> • I regularly send a high number of parcels.
<ul style="list-style-type: none"> • I record parcel data myself and it is convenient for me. 	<ul style="list-style-type: none"> • parcel data are stored in our company's system, and our processes would be accelerated if we were able to use those data to create address labels without a third-party program.
<ul style="list-style-type: none"> • the current label completion software is well-suited for the operations of our company. 	<ul style="list-style-type: none"> • parcels are readied during the day so we need to print address labels on several occasions, which makes the use of a label completion program inconvenient.
<ul style="list-style-type: none"> • I work in a Windows based environment. 	<ul style="list-style-type: none"> • we need a platform independent solution as we work in a Mac based system.
<ul style="list-style-type: none"> • The program offers all the functions that I need. 	<ul style="list-style-type: none"> • The limited scope of functionality available in MPL API is sufficient for me.
<ul style="list-style-type: none"> • I need to be able to look up my dispatched items, which makes the program indispensable for me. 	<ul style="list-style-type: none"> • We store and sort the data of dispatched parcels in our own system so we do not need support for these functions from the carrier.
<ul style="list-style-type: none"> • I use certain functions of the program actively. For example, address book, delivery order 	<ul style="list-style-type: none"> • We store our clients'/customers' addresses in our systems. Delivery can also be ordered by email.
<ul style="list-style-type: none"> • Installing the program is not an issue for me. 	<ul style="list-style-type: none"> • Our company's information technology policies do not support installation of third-party programs.
